

INCENTIVES FOR INVESTMENT

In Sabah, both the direct and indirect tax incentives are provided by the Federal Government to enhance investment in various investment activities in the manufacturing, aquaculture, tourism and services sectors. R & D, training, environmental protection activities are also eligible for investment incentives.

The Federal Government is willing to consider special package incentives on a case to case basis for investment projects with high investment value and impact on state economy.

For further details of the incentives available, please refer to "Policies, Incentives and Facilities" book published by Malaysian Investment Development Authority (MIDA) or visit www.mida.gov.my.
